RE: Cable Concrete, International Erosion Control Systems

On several occasions over the last 20 years, B.M. Ross and Associates have specified “Cable Concrete” for use on projects ranging from slope protection to pond and spillway lining.

We have been satisfied with the overall performance of the “Cable Concrete” product where it has been installed on projects. We will continue to specify the product for projects where it can provide a suitable solution for access and erosion issues.

Yours very truly

B. M. ROSS AND ASSOCIATES LIMITED
