RE: 'Cable Concrete' – Manufactured by 'International Erosion Control Systems'

The County of Brant has used 'Cable Concrete' on various water flow channels, riverbank/waterfront protection, steep slope protection, and boat ramp applications.

Most recently (Fall 2010) the County installed 'Cable Concrete' on a boat ramp used by the Brant County Fire Department to access the Grand River with emergency vehicles. The County was very pleased with the ease of installation and cost effective solution it provided.

The County has been satisfied with the overall performance of the product and will continue to use 'Cable Concrete' on suited applications as mentioned above.

Should you have any further questions or concerns, please contact the undersigned.

Yours truly,

A large, handwritten signature in black ink, appearing to read "David Stanbridge", is written over the typed name and title.

David Stanbridge
Engineering Technologist
County of Brant
